J. F. Schreiber’s Paper Theatres
(Èßlingen a. N.; late 19th & early 20th centuries)

Paper theatres were very popular during the 19th century and up until television was introduced. J.F. Schreiber’s paper theatres set the standard for German children’s theatres in the 1880s in Europe. Schreiber’s publishing house printed its first model theater sheet in 1878 and the last one in 1921. The sets and characters were cut out of books and paper sheets and strengthened with strips of wood so the characters stood up and could be moved around the stage according to the story depicted.

Between 1878 and 1896, the Berlin bookseller (?) Ernst Siewert wrote 34 paper theatre plays for Schreiber. Another major contributor was the Austrian lawyer Innocent Tallavania, who wrote scripts for at least 18 plays.

Most Schreiber plays are theatre versions of well-known German classical literature and fairy tales.
